

Bible Reading Plan 2024

January 2024 - Wisdom for the New Year

The Book of Proverbs was written by Solomon, perhaps the wisest man who has ever lived. When God asked what he wanted from Him, Solomon asked for wisdom, “a discerning heart to govern your people and to distinguish between right and wrong” (1 Kings 3:9). Because of this, God not only granted him wisdom but “wealth and honor” so there would be no one like him, before or after. In each of the thirty-one Proverbs here, Solomon helps us to understand where true wisdom comes from, but also what happens when wisdom is lacking in the foolish person. We must not be like him and avoid him at all costs. However, we must seek after God whole-heartedly, in whom are hidden all the treasures of wisdom and knowledge.
