

Family Matters

Understanding family from God’s perspective is critical to family success and godly influence. The Bible contains many principles and stories which can shine light on what to do and what to avoid. These family-oriented verses or passages are embedded in a broader context of redemption and spirituality. God helps fractured families to become faithful families as each person works out their salvation (Philippians 2:12-13). Every family passes a set of values to the next generation. The important issue is whether they are godly or worldly.
